

Kamala Broke It, Trump Will Fix It

Voters agree: Kamala Harris broke it, and President Donald Trump will fix it.

- Inflation? Kamala fueled it with her tie-breaking votes. President Trump will solve it with his agenda to lower costs, unleash American energy, and make America the best place in the world to do business.
- The border? Kamala is complicit in creating the worst border crisis in U.S. history. President Trump will secure the border once again and enact the largest domestic deportation operation in American history.
- Foreign policy? The Harris-Biden administration surrendered Afghanistan and emboldened our enemies. President Trump will bring back peace through strength.
- Despite the lies from Kamala's fake news media allies, Americans know a vote for President Trump is a vote to Make America Wealthy, Safe, and Great Again.

- The WSJ poll also found: "By 10 points, more voters have a favorable than unfavorable view of Trump's economic plan for the country, while unfavorable views of Harris's economic plan outweigh positive views by 4 points."

Immigration Reform

- Border Czar Kamala Harris has failed to secure the border.
- 10.4 million illegal immigrants have crossed the southern border since Harris & Biden took office.
- This includes the 8.4 million illegal immigrants that Customs and Border Protection (CBP) has encountered and the roughly 2 million gotaways that have escaped past Border Patrol into the U.S.
- 101,790 illegal immigrants were encountered attempting to cross the U.S.-Mexico border in September.
- That's a 112% increase from the average number of September apprehensions during the Trump administration.
- This number does not include the administration's funneling of illegal immigrants through the CBP One App – which also processed 44,600 migrants in September alone.
- 6,524 unaccompanied children were encountered.
- 49,269 illegal immigrants were encountered from countries outside the Northern Triangle and Mexico, showing that Biden's crisis is global.
- At least 103 people on the terror watchlist have been encountered trying to enter the U.S. between ports of entry this fiscal year.
- This is in sharp contrast to President Trump's term, when only 14 people on the terror watchlist were encountered total.
- Drugs are pouring over the border and into our communities.
- Illicit drugs are flowing into the country at an alarming rate, with only 5 to 10% being intercepted as border officials struggle to contain the smuggling.
- 2,169 pounds of deadly fentanyl and 6,984 pounds of methamphetamine were seized at the southern border in September alone, with much more getting through.
